The Sender-ID is: ConectMedia and Not ConnectMedia

- This is as the Unique Sender ID can Only be a Maximum of Eleven Characters.

See below:

Note: Replace username, password, xxxxxxx, Test SMS from Connectmedia.co.ke Text in just first few lines.

Nothing else below it needs to be changed

```php
<?php
$username = 'username'; //Your Username
$password = 'password'; //Your Password
$sender = 'ConectMedia';; //Sender ID of the message
$action = 'xxxxxxxx';//Required action(send -> sending message) (balance -> balance) (history -> sent history)
$to = '254xxxxxxxx'; //Destination Number
$message = "Test SMS from ConnectMedia.Co.Ke"; //Message Text
$url = "http://www.connectmedia.co.ke/user-board/?api"; //Please don't change
$post = [
'action' => "$action", //Please don't change
'to' => "$to", //Please don't change
'username' => "$username", //Please don't change
'password' => "$password", //Please don't change
'sender' => "$sender", //Please don't change
'message' => urlencode("$message"),//Please don't change ];
$ch = curl_init("$url"); //Please don't change
curl_setopt($ch, CURLOPT_RETURNTRANSFER, true);
curl_setopt($ch, CURLOPT_POSTFIELDS, $post); //Please don't change
$response = curl_exec($ch);
curl_close($ch);
$jsonarray[]=array();
$jsonarray=json_decode($response, true);
echo "Return code is: $jsonarray[code]"; //Response code of the API
echo "Return message is: $jsonarray[message]"; //Response Message
?>
```
